

The Benefits Junction HOME Page

We revamped the Home page of Benefits Junction to give it a fresh new look that is noticeably easy on your eyes. The new Dashboard makes it simple to derive actionable insights based on data in the system. Additional tabs provide easy access to Employer and Admin tasks.

The dashboard provides a comprehensive overview of enrollment data. Key features include:

- Current Enrollment:** A donut chart showing the total number of current enrollments, which is 207. Categories include Enrolled/Declined (green), Not Enrolled (red), Not Eligible (yellow), and Enrolled COBRA (orange).
- Enrollments by Plan:** A section showing enrollment distribution for various plan types: Medical, STD, Basic Life, and HSA. Each plan type has a corresponding donut chart. A detailed table for the Medical plan is shown below:
